# Welcome!

On Behalf of the Medicine Hat & District Chamber of Commerce we would like to welcome you to this years Home & Leisure Tradeshaw. With a diverse array of businesses and something for everyone, we are thrilled to showcase the best products, services, and technologies the region has to offer.

This weekend will host a multitude of booths, where visitors can expect to see an impressive exhibition of products and services from a diverse range of industries. From agriculture to healthcare, manufacturing to energy, there will be plenty to discover and explore.

The exhibitors are eager to connect with visitors and offer insights on how their products and services can benefit you.

The Home & Leisure Tradeshaw isn't just about business, though. There are plenty of additional attractions that make it a great experience for the whole family. Our Food Alley will offer a range of delicious options to suit every taste.

We also have a designated children's play area, with a purchase of a wrist band the little ones can have fun and burn off some energy. The play area is designed to be safe and secure, providing parents with peace of mind while their children enjoy a range of activities and games.

We want to continue to improve our service to our community and we welcome your ideas and input on future shows. Connect with us and share your feedback so we can continue to expand our shows and produce outstanding events that resonate with you, our consumer.

Please also help us in expressing thanks' to all of our exhibitors, sponsors, members, and supporters as they make this show the success that it is!

Thank you to our residents and the many visitors to our beautiful city for the ongoing support of our shows and our business community.

## Enjoy the show!

### OUR LITTLE SPROUTS GARDEN RETURNS!

Gardening with kids is an important way to teach them where their food comes from. Gardening helps children to learn the importance of healthy eating and to appreciate the effort that goes into growing food. It also teaches them the value of hard work and the satisfaction that comes from growing their own food!
